## Professional Summary

Motivated Computer Science student with strong problem-solving skills in Data Structures & Algorithms (DSA), Python, and Java. Skilled in full stack web development and currently upskilling in the MERN stack. Passionate about building scalable, user-focused applications and contributing to collaborative engineering teams.

## Education

- MCA, Jamia Millia Islamia — *Expected 2026*, CGPA: 8.66
- BCA, SSDC Kanpur (CSJMU) — 2020, 73.75%
- XII, SGVP Inter College (UP Board) — 2017, 84%
- X, SGVP Inter College (UP Board) — 2015, 82%

## Technical Skills

- Languages: Python, Java, C, C++
- Web: HTML, CSS, JS, Node.js, Express.js, React.js
- Databases: MySQL, MongoDB
- Tools: Git, GitHub, Mongoose
- Core: DSA, OOP, SDLC, Debugging, Teamwork
- Learning: MERN Stack, Cloud (Heroku, Render)

## Projects

- **Airbnb Clone Application** (Ongoing) | Full-Stack Developer | Aug 2025 – Present
  - Building a responsive Airbnb-like platform with authentication, property listings, and booking features.
  - Using HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, REST APIs.
  - Implemented JWT-based login, middleware validation, and scalable backend architecture.
- **Cyber Security Management System** | Backend Developer | 2024
  - Built a system for managing security policies, vulnerability tracking, and compliance.
  - Focused on access control, threat detection, and reporting using Python and databases.
- **Portfolio Website** | Frontend Developer | 2024
  - Created and deployed a personal portfolio using HTML, CSS, and JavaScript.
  - Optimized responsiveness and accessibility across devices.

## Certifications

- Python Certification – BTPS, Kanpur
- Web Designing Certification – HIGHPROSOFT, Kanpur
- Workshop on C Programming – Shri Shakti Degree College, Kanpur

## Strengths

- Quick learner with strong adaptability
- Effective team player with problem-solving skills
- Positive and self-motivated
